IGH

The Persian Gulf War may only linger in our minds as a distant memory, but on January 15 it became the focus of attention. Guilford College students stared into the future with growing uncertainties. For some of us, our families, friends, and lifestyles were threatened in ways we had never imagined. As a generation otherwise untouched by personal experiences with war, the Gulf War had a great impact on life in our community.

Class discussions often drifted toward subjects related to the conflict. Information sessions and panel discussions lead by professors frequented the activities calendar. Issues such as convincing our government to pull out of the Gulf were hot topics of conversation for those who felt that they had to do something.

RETIRING AFTER THOUSANDS OF LETTERS

After thirteen "thoroughly enjoyable years" of working in Guilford's mailroom, Mrs. C retired. The decision didn't come easy though. "I'll certainly miss the kids," says Mrs. C, "but I've reached a point in my life where I need to spend more time with my husband."

Gertrude Cloutier arrived at Guilford in August of 1978, but she wasn't Gertrude Cloutier for long. "I was known as Mrs. C from the day I got here," Mrs. C says with a smile that indicates approval. "It makes it easier for everybody."

After thirteen years of hard work, it certainly seems Mrs. C deserves a rest. Working in the mailroom is not easy. "It's hard to work in such cramped quarters," says Mrs. C, "but I have the kind of attitude that can tolerate it." In her thirteen years she has never missed a day of work due to poor weather, even though she commutes 20 miles a day from Pleasant Garden.

The entire Guilford College community appreciates Mrs. C's solid service, but we will remember her as a friend. Mrs. C had an especially strong relationship with the students.

In 1986 she received the faculty award for service to students which was the highlight of her Guilford career. "I never dreamed such an award would be given to me," says Mrs. C.

"I think she should have received the award last year," says Skip Davenport, "She's a warm and personable lady I could always talk to."

Claude Mudimbe concurs, "I remember once I was having a bum day and I just needed someone to talk to. Mrs. C was there and she listened to what I had to say."

But all of the student friendships Mrs. C develops do not end in four years. She still corresponds with students who have graduated years ago. Mrs. C has even attended student weddings. She travelled to Ireland in 1988 to see Ruth Pim get married and went to Spartanburg, South Carolina, last year to see the wedding of Kim Montgomery. Through the years, Mrs. C has always been a friend to the student.

Her husband is the main reason Mrs. C retired, but she had 1200 little reasons to stay — the Guilford students! "The kids have always come first for me," says Mrs. C, "Guilford has been good for me and good to me." I think we could all say the same thing about Mrs. C.

--IN MEMORIAM--

Grimsley Taylor Hobbs
1923-1990
Philosophy professor, former President of Guilford College

In the last few days preceding Thanksgiving break, the Guilford College community was shocked and distraught by the deaths of two well-known and popular professors. Quickly-organized memorial services helped ease the shock and pain of the wide-felt loss. Grice and Hobbs have since been praised for their contributions to the college; many students, staff, and faculty members will long remember the impact these men had on them.

The following pieces are excerpts of memorials printed in *The Guilfordian*. Both are reprinted with permission of *The Guilfordian* and their respective authors.

GRIMSLEY HOBBS
- - Bill Rogers

Grimsley's days as president were not always easy ones. He led the college through periods of social upheaval. There were controversies over curricular development and the social codes of the college. And there were some difficult times in working with the Board [of Trustees]. But Grimsley's stature as a man, both physically and personally, carried him through these times with a continuing sense of vision and a disciplined quality of determination.

Justice and Policy Studies Professor

JOHN GRICE
--Henry Hood

Artistry takes many different forms; John Grice was an artist among teachers. His secret was no secret at all; he simply wanted to share his enthusiasms and, above all, his voracious appetite for learning. His scorn for cant, for the merely voguish, or for meretricious and slip-slop pretense of scholarship was part of this. John Grice was what he seemed to be; pretense and intrigue were entirely foreign to his nature. So he gained devoted friends among his collegues and admiring students to whom he gave his best, and of whom he demanded the best in return.

(Henry Hood is a retired Guilford College professor.)

Robert William Keefe
1969-1990
Guilford College Student

Rob, who had been a student at Guilford for two years, died an accidental death during the summer of 1990.
A silent worship service was held in his memory in September. The following passages are readings from *The Miracle of Mindfulness*, a book that was especially meaningful to Rob.

"Live the actual moment. Only this actual moment is life. Don't be attached to the future. Don't worry about things you have to do. Don't think about getting up or taking off to do anything. Don't think about 'departing.'
-- Thich Nhat Hanh

"On the same spot I sit today
Others came, in ages past, to sit.
One thousand years, still others will come
Who is the singer, and who the listener?

I certainly think that it is better to be impetuous than cautious, for fortune is like a woman, and it is necessary, if you wish to master her, to conquer her by force; and it can be seen that she lets herself be overcome by the bold rather than by those who proceed coldly. And therefore, like a woman, she is always a friend to the young, because they are less cautious, fiercer, and master her with greater audacity.

EIJI TAKEUCHI

First of all, I thank my family for supporting me all these years. Coming to Guilford College was a drastic change in my life. Two and 1/2 years later, I am graduating the college. Time comes and goes very quickly. I will remember both the good times and the bad times. I will remember the people I met. I will remember the places I have gone. I will remember always ...

Mom and Dad - This One's For You:
We have three fine children
They are a great joy
There's only one problem --
Each is a boy

To try once again
The traditional way
Would with no doubt

Add one more boy to the fray.

So we've chosen the only
Sure positive option
It's a marvelous idea
It's called adoption.

She's tiny and pretty
As sweet as can be
We're proud to announce
Our daughter, Wendy!

1. The shock of the real. For a little while we are again able to see, as the child sees, a world of marvels. For a few moments we discover that nothing can be taken for granted, and our journey here on earth, able to see and touch and hear in the midst of tangible and mysterious thing-in-themselves, is the most strange and daring of all adventures.

We are born into the World
Like a blank canvas
And each person that crosses our path
Takes up the brush
And makes his mark
Upon our surface

So it is that we develop

But we must realize
there comes a day
That we must take up
the brush
And finish the work
For only we can
determine
If we are to be
Just another painting
Or a Masterpiece.

Thanks and love to all those who I have befriended during my college career. I'll refrain from using names since any exemptions would be a crime. However, I'll forever remember you and vice versa. As graduation nears, I want to especially thank my mother, Marlylin, for being my greatest source of strength and encouragement. She has taught me how to believe in myself and to strive to be my best. When I was a junior in high school, she gave me this quote:
The race does not always go to the stronger or faster man.
But the man who wins is the man who thinks he can.

Next, I want to thank my boyfriend, Doug, for loving me and listening to me. And I sincerely appreciate all his patience with me. Most of all, I thank God Almighty for the daily grace and the saving grace through faith in Jesus Christ which have helped me immensely through it all! "Casting all your care upon him; for he careth for you." I Peter 5:7

WILLIAM TURNER ABEL

I want to thank my Mom and Dad for somehow getting me through Guilford with love and support. Without them I wouldn't be here. I also want to thank my brothers, Taylor and Rob, for their influence, guidance, and help. Finally, I want to thank my best friend in the world with all the love in my heart. Lori, thanks for keeping me sane and helping me to remember the important things in life -- a tender hug, a gentle laugh, and the love that forms between two people. I hope what Guilford has given us all will remain in our hearts always. Remember:

We are all ignorant, just about different things.

First to my family who always supported me emotionally as well as financially. Secondly to the other three of the original foursome. We've managed to stay together from trips to Charlotte and fire alarms to lunch at Mexico and trips to Wintergreen.
Cheyenne, four years with you has been a linguistic experience. Here's to our summer ... Kirsten (Ki-Ki), sarcastic wit like yours can never be forgotten and neither can you ... Kara, you've come a long way -- can openers have nothing on you! Keep up the good work.
And finally Jay, words can never begin to describe three years with you. So much has already been said so I'll leave it at this -- you will always be in my thoughts and close to my heart.

I love you all,
Rachel.

Lean to the right and you lean to the left and you -- Wait, that doesn't rhyme! ... She would use O.B.! ... Nice ass! Thanks! It's Serendipity! (That's for you, B and D!) ... Let's BUS-STOP! Join in!"

Thanks to all the people who've made it Guilford ... Friends, family, the ed majors, suitemates, professors, Greg, and of course, Betsy Blond! Good luck - see ya!

Wisteria vines often thrive in poor soil. Their secret is something called rhizobia ... a whole invisible network for helping out the plant that you'd never guess was there. The wisteria vines on their own would just barely get by, but put them together with rhizobia and they make miracles.

Out of the Night that covers me,
Black as the Pit from pole to pole,
I thank whatever gods may be
For my unconquerable soul.
In the fell clutch of circumstance
I have not winced nor cried aloud.
Under the bludgeonings of chance
My head is bloody, but unbowed.

Beyond this place of
WRATH and TEARS
Looms but the horror of
the shade.
And yet the menace of
the years
Finds, and shall find me,
unafraid.
It MATTERS NOT how
STRAIT the gate,
How charged with
punishments the scroll,
I am the MASTER of my
fate;
I am the captain of my
soul.

Guilford - four years isn't enough. Or maybe it was too much? See! Cigs, staying up, and solving the world's problems. But seldom our own. What would I have done without you? HK, four years, thick and thin, life and death, and halt way around the world. "Opposition is true friendship." -- William Blake. Suite B-12: Good times. Bad times. You *know* we had our share. There are places I'll remember
All my life, though some have changed.
Some forever, not for better.
Some have gone and some remain.
All these places had their moments
With lovers and friends I still can recall.
Some are dead and some are living.
In my life I've loved
them all. -- J.T.

Making your way in the world today takes everything you've got. Taking a break from all your worries sure would help a lot. Wouldn't you like to get away? Sometimes you wanna go where everybody knows your name, and they're always glad you came. You wanna be where you can see our troubles are all the same. You wanna go where everybody knows your name. You wanna go where people know people are all the same.

It seemed like yesterday I was trying to make the golf team. Thanks coach for sticking with me during the first semester freshman and sophomore year. This year I tried to hold it together. In my four years at Guilford, I have made more than one trip to Pinehurst and calls to Columbia. Thanks A.T. for all the late night movies, drinks, and all the friends from Chapel Hill. The "suite" B31 will stay together: cards, drinks, ballgames, and bogies! Bay Valley will always be with those who were there: winds, 72nd hole, "... you can six putt from there," the TEAM, the banner, the rings. Mitch -- thanks for the talks, the trips, the skins, and "the bone." Apt. 29A: Chuck, Sean, half or pony, the reunion of the "suite," and what elections night started. What I have been preparing to say is this, in wildness is the preservation of the world ... Life consists of wildness. The most alive the wildest. Not yet subdued to man, it's presence refreshes him ... When I would recreate myself, I seek the darkest wood, the thickest and most interminable and to the citizen, most dismal swamp. I enter as a sacred place, a Santum Sanctorum. There is the strength, the marrow, of Nature. In short, all good things are wild and free.

I have wished the bird would fly away,
And not sing by my house all day;
Have clapped my hands at him from the door
When it seemed as if I could bear no more.
The fault must partly have been in me

The bird was not to blame
for his key.
And of course there must
be something wrong
In wanting to silence any
song.

ELIZABETH (BETSY) VANCE

It was the best of times, it was the worst of times, it was the age of wisdom, it was the age of foolishness, ... it was the spring of hope, it was the winter of despair, we had everything before us ...

-- Charles Dickens, *A Tale of Two Cities*

The 1991 Quaker is the culmination of an extensive community-wide effort that we never thought possible. Although the frustrations en route to final publication were discouraging, the kind words and actions of encouragement and strong confidence of students, staff, faculty and alumni were valuable and ensured our passage to completion. Although apathy and laziness do exist at Guilford, the impact of these elements was dramatically minimized by the positive support we received from every facet of the campus. (See acknowledgements page for a sampling.)

From filling out editor applications to the distribution of *The 1991 Quaker*, a time period of approximately sixteen months, our primary goals for *The Quaker* were eventually accomplished. • To continue building a tradition of quality, excellence, and pride in Guilford College publications, using *The 1990 Quaker* as a strong foundation • To make *The 1991 Quaker* The Yearbook of Guilford College, including facets of the entire community in its production and in its pages • To fulfill our original staff logo as *The 1991 Quaker* **Team** • To balance academic responsibilities with those of *The Quaker*, and to create a structure in which all editors and staff members could do the same.

Specific members of the community were primarily and ultimately responsible for the book's completion (see staff pages). As with the community, our editors and staff members contributed a wide range of skills and worked in what truly became a team effort. They represented biology, physics, chemistry, English, psychology, French, education, justice and policy studies, and sport management majors. All of the editors and staff had knowledge and skills from their respective majors and extracurricular activities that were integrated into all aspects of the book. This proved to us that there is much more to student publications than just a limited pool of journalism aspirers!

The personal friendships that have developed amidst the hustle, bustle, and stress of yearbook production have encouraged and inspired us all. **Joanna Iwata,** from the beginning, has given us comfort, assistance, advice, encouragement, and friendship. Her tireless efforts to sustain and improve student publications deserve and receive our utmost gratitude. **Rex Adelberger** has been a motivator, advisor, and a valuable connection to the real world. He is, quite simply, **the best.** Thanks Rex!!

Larisa, it has been better than we ever hoped it could be. Thank You for being such a great co-editor!! I've enjoyed working with you, learning from and with you. (I am still in awe at our ability to work together, share responsibility equally, be roommates, AND be close friends!!)

Frances, thank you for escaping the Chemistry Department long enough to prove yourself as a more competent and efficient Financial Director than we ever deserved. Thanks for the friendship, dedication, persistence, and flexibility in keeping us on track and relieving our financial worries; doing much of our shopping, running errands, giving us feedback on layout and copy ideas, and helping with publication decisions.

Jeff, who in his own words could "yell real loud" and "learn computer systems at the drop of a Mac," has done virtually none of the former and a great big bunch of the latter. You have helped compile computer budget requests, installed software, set up our database, saved us from computer crash oblivion, and spent hours on computer maintenance. We owe our healthy technology to you.

Sheron: your laughter, common sense, straightforward perspectives, talent, dedication and HUGE time commitment have kept us alive. [Not to mention driving lessons to MEXICO and much time at Carolina Camera.] We appreciate you and hope that you have benefitted as much as we have!

Betsy (Betz): our layout and design editor with many valuable ideas and layouts, for obtaining sports photos and captions (WHEW!), for your time and patience. Your presence in the Pub Suite was always welcome, refreshing, and invigorating. Thanks for sticking with us!

Scott, your recruiting abilities, pizza deals, captions, work-day planning and book distribution contributions were a big help. Thanks for being there when we most needed you.

To our **hard-working staff members: THANK YOU!!** You all made it happen and we editors are **extremely grateful!** Your team effort made the book possible and made us all much happier and more confident. I have enjoyed your friendship, patience, and perserverence.

Mark McPherson: thank you again for all your help, love, laughs, money, and wheels (and for the 1 year roses!). You have been a priceless addition to our team!

Okay, Okay, I'm almost finished. To my family: **wow! what a year.** Welcome Jordan! To Dad, Mom, Amy, and James in my beautiful home state of West Virginia: thanks for all the values, knowledge, confidence, and ability you instilled in me; thank you for the support (financial, emotional, etc.) and for your tolerance. Yo Christy, thou editor in chief twin o' mine: thanks for sharing yearbook sob/gripe/success stories with me. Can't think of anyone better with whom to share the twin thing.

LARISA "LARRY" HULNICK

"Like the sands of the hourglass, so are the days of our lives...."

Okay, Guilford, here it is. We hope you enjoy it. We dream of the day thirty years from now when you will pull this book off the shelf and show it to your kids or grandkids or cocker spaniel or whatever, and you will remember 1991 at Guilford College, and you will smile. We want you to remember this year at this little college, with all of its quirks and foibles, with fondness. We hope we have given you an accurate pictorial record of this year in your lives.

It's been fun, believe it or not, putting this thing together. People have a tendency to flinch when I tell them I'm one of the editors of the yearbook. "Wow, that's cool," they say, but I know they're really thinking, "Better her than me." I will admit that I've put in long hours, but some of those hours have been spent chowing on pizza with the other editors and staff or gossiping at meetings. I like to think of this year as a learning experience — I've learned about photography and using a darkroom and I've sharpened my desktop publishing skills, but I've also learned a lot about the value of working as a team on a project as big as this one. When people flinch, I just tell them that we have a good editorial board and staff and things are going smoothly. I realize that my co-editor has adequately expressed our collective gratitude, but there is one I need to throw in.

"Editor." It's a scary word. Put "in chief" behind it, and it's even worse. But stick a "co" in front of it and you can sleep easier at night. Without my co-editor, Betsy ... let's face it, I don't think I would have taken this job, much less finished it. People wonder how we can do this and still be friends - we wonder about that too. I'm not going to question it, I'm just glad about it. Betsy's been a friend, co-worker, and a good person to be around. I'll never be able to thank her enough. She's even put up with listening to the Grateful Dead for hours in the office. What more could you ask for?

I'm leaving the hallowed halls of this fine institution (how's that for a cliche?), but I hope I've left my mark as one of the contributors to this yearbook. I hope (and I hope this for my co-editor and all of our editors and staff) that I am leaving something behind that will mean something to somebody someday. So, do us a favor and don't stick this book in the attic. Put it on your shelf and take it out once in a while and look through it. If it brings back fond memories, or any kind of memories at all, we've done our job..

See you in the shopping malls...

To the Guilford College Community, which has wholeheartedly embraced the 1991 *Quaker* effort, thus making the book's completion and quality possible

NAME INDEX

The name index includes the name of the photo subject, his/her class standing if a student (1=Freshman, 2=Sophomore, 3=Junior, 4=Senior), and the number of the page on which the photograph appears. Every attempt has been made to identify all persons in all photographs. However, in the interest of time and space, not all individuals appearing in large group photos have been identified and indexed. To compensate for this ommission, a Groups Index has been added to the end of the name index. Only the names of the groups themselves and the pages on which the groups appear have been listed in this extra index.
